

# Senior Product Development Technician

Are you interested in working at a market leading multinational company? At Grundfos, we develop, produce and sell some of the worlds' most efficient and energy saving pumps and pump solutions across the globe. We help our customers save natural resources and reduce climate impact. With us, you will be part of an international workplace where innovation, collaboration and development are front and centre in everything we do. Grundfos is financially independent, stable company, where next to our customers, employees are also number ones for us. Grundfos provides free professional training and personal development opportunities in an international environment. The position offers a competitive salary and benefits package, in a pleasant working atmosphere and environment.

## What is the job about?

We are looking for a Senior Product Development Technician to join our newly establishing team focusing on Grundfos' Wastewater and Groundwater solutions.

You will join our global Research & Development unit in Székesfehérvár, Hungary and you will work with numerous skilled and dedicated engineers and technicians, Scrum Masters, Product Owners working in agile cross-functional teams. Agile teams that are stable and empowered as part of a general Agile setup with a program and release management mindset.

## Your primary tasks involve but not limited to:

- Build, validate and verify or document new and existing products
- Receive task/issue from product development engineers and solve it in dialogue and according to own knowledge/best practice
- Participate in project teams and contribute actively to the success of the project
- Follow relevant procedures and instructions
- Document results and provide advice to solutions

## What do you need to apply?

- Technician degree or equivalent work experience
- Fundamental Technical knowledge
- 1-2 years relevant experience
- Good level of English
- Experience driving well-defined processes
- Ability to lead minor processes or projects
- Some experience supporting key business initiatives

**Location:** Székesfehérvár, Hungary

## Why Grundfos?

At Grundfos, we dare to do things that others cannot or dare not do. Our skills commit us to pioneer solutions to the world's water and climate challenges and improve the quality of life for people. We believe innovation is not only a business opportunity, but an obligation. And what really matters to us is not short-term profit, but the impact we make. By becoming part of our united powerful team, you too can drive this change no matter your role.

**Furthermore, we offer:**

- Dynamically improving company with stable background
- Professional challenges and development opportunities in multinational environment
- Competitive salary and benefits
- Teamwork in an international team
- Sport facilities (gym & squash)
- Flexible working-time, Home Office
- Family friendly, environmentally aware employer
