

Tárgy neve: Geography of Europe		NEPTUN-kód:	Óraszám: nappali: 2 ea + 0 gy + 0 lab
Kredit: 2 Követelmény: évközi jegy		Előkövetelmény: nincs	
Tantárgyfelelős: Horoszné dr. Gulyás Margit	Beosztás: adjunktus	Kar és intézet neve: Óbudai Egyetem Alba Regia Műszaki Kar	
Process of evaluation and control: The students will write one exam in the semester, which will be based on the topics of the lessons. In order to receive the signature the students have to achieve at least 50% of the points in the exam and have to prepare one homework. Persons who cannot participate on the exam will have the possibility to write it before the end of the semester (before last week). The work in the semester cannot be postponed to a later time.			
The description of knowledge:			
The climatic and environmental facilities of Europe. The physical geography of Europe: islands, peninsulas, rivers, lakes, mountains. Geology and hydrology of Europe. Western Uplands. North European Plain. Central Uplands. Alpine Mountains. Flora and fauna. Environmental crisis.
