The Curriculum							
Educational objectives: Let the students gain insight into the online marketing world, which is an important area of marketing activity of companies nowadays. The main tasks of online marketing are							
online presence, furthermore managing sales and communication. It has become inevitable that the							
employees of companies have these professional skills, in order to function this activity effectively. The							
aim of the training is to help the prospective professionals of small and medium-sized companies to build							
the most effective internet marketing based on their own strategy. To effectively operate these tools they							
need to measure the efficiency of marketing activities and strategy.
