

Internship Opportunities for Recent Graduates

Location: Székesfehérvár, Hungary

Position: Quality Engineer Intern, Project Engineer Intern, Production Planner Intern, Welding Process Engineer Intern, Mold Engineer Intern

Type: Full-time Internship (6-12 months, with potential for permanent role)

Start Date: August/September 2025

Application Deadline: July 31, 2025

About Us

Join a global leader in innovative manufacturing, with a dynamic presence in Székesfehérvár, Hungary. We are an international company driving advancements in engineering, technology, and business, offering exciting opportunities to work on high-impact projects with a diverse, multicultural team. Our commitment to innovation, sustainability, and talent development makes us the perfect launchpad for ambitious graduates ready to kickstart their careers.

Why Join Us?

We are seeking **four passionate Hungarian recent graduates** to join our team as interns in Székesfehérvár. Whether you're fascinated by engineering, marketing, human resources, or another field, this is your chance to gain hands-on experience in a world-class organization. No matter your academic background, we welcome all motivated candidates with a desire to learn and grow. With comprehensive training and mentorship, we don't limit your potential—we empower it!

Roles and Responsibilities

We are hiring for the following internship roles, tailored to your skills and interests:

1. Quality Engineer Intern

- Conduct quality inspections and testing to ensure product compliance with global standards.
- Analyze data to identify trends and suggest process improvements.
- Collaborate with teams to uphold high-quality production standards.

2. Project Engineer Intern

- Support project planning and execution for product launches or process upgrades.
- Coordinate with suppliers and internal teams to meet timelines and budgets.
- Assist in creating technical documentation and project reports.

3. Production Planner Intern

- Develop and optimize production schedules for efficient operations.
- Monitor inventory and coordinate with supply chain teams.
- Analyze production data to enhance workflow and resource allocation.

4. Welding Process Engineer Intern

- Assist in designing and optimizing welding processes for manufacturing efficiency.
- Conduct tests to ensure weld quality and compliance with industry standards.
- Work with senior engineers to implement innovative welding techniques.

5. Mold Engineer Intern

- Support the design and maintenance of molds for precision manufacturing.
- Collaborate with production teams to troubleshoot mold-related issues.
- Participate in prototyping and testing new mold designs.

What We' re Looking For

We welcome candidates from all academic backgrounds, with a particular interest in:

- **Preferred Majors:** Recent graduates (2024/2025) with a Bachelor's or Master's degree in **Mechanical Engineering, Industrial Engineering, Electrical Automation, Marketing, Human Resources**, or related fields.
- **Open to All:** If your major isn't listed, don't worry! We value passion and potential over specific degrees. Our comprehensive training program will equip you with the skills needed to succeed.
- **Language Skills:** **Fluent English** (TOEFL 71+ or IELTS 6.0+), Hungarian proficiency is a plus.
- **Skills:**
 - Strong analytical and problem-solving abilities.

- Familiarity with tools like AutoCAD, SolidWorks, PLC programming (for engineering roles), or marketing/HR platforms (e.g., CRM, ATS) is an advantage but not required.
 - Eagerness to learn and adapt in a fast-paced, international environment.
- **Attributes:** Proactive, team-oriented, and passionate about making an impact.
- **Availability:** Able to start in August/September 2025 for a 6-12 month internship.

What We Offer

- **Competitive Compensation:** Monthly salary of **900-1,200 EUR** (gross), competitive in the Hungarian market.
- **Local Benefits:**
 - **SZÉP Card:** 400 EUR/year for leisure and dining.
 - **Meal Vouchers:** 30 EUR/month.
 - **Transportation Allowance:** 20 EUR/month.
 - **Private Health Insurance:** 50 EUR/month for peace of mind.
- **Career Development:**
 - Personalized mentorship from experienced professionals in engineering, marketing, or HR.
 - Hands-on training with industry-leading tools and technologies.
 - Clear path to a permanent role upon successful internship completion.
- **Global Exposure:** Work in a multicultural environment with opportunities to collaborate on international projects.
- **Work-Life Balance:** Flexible hours, modern office in Székesfehérvár's thriving industrial hub, and a supportive, inclusive team culture.

Why This Opportunity Stands Out

- **No Limits on Your Potential:** Whether you're an engineer, marketer, HR enthusiast, or from another field, our training programs ensure you thrive in your role.
- **Launch Your Career:** Gain practical experience in a globally recognized company, building a strong foundation for your future.
- **International Network:** Connect with professionals across Europe, Asia, and beyond, leveraging our global presence.
- **Innovative Projects:** Contribute to cutting-edge manufacturing, marketing campaigns, or talent management initiatives.

How to Apply

Ready to start your journey with us? Send your **resume** and a brief **cover letter** (in English) to lucy.diao@dl-futurehr.com by **July 31, 2025**. Please specify your preferred internship role (Quality Engineer, Project Engineer, Production Planner, Welding Process Engineer, or Mold Engineer) or indicate if you're open to any role.

For more details or inquiries, contact us at lucy.diao@dl-futurehr.com. We review applications on a rolling basis, so apply early to secure your spot!
